

V150 ENGINEERED W

CRAFT 

Craft 1908264

Lightweight and high-energy-return shoe with great flex and support for both speed intervals and longer runs.

- Anatomical shape
- Based on the GATE technology (Grip, Anatomical shape, Torsion, Energy return)
- Built on a last design that truly follows the natural contours of the foot. In addition, anatomical toe shape and flexibility in the right areas allow the foot muscles to work and perform as they are intended to do.
- The shoe features neutral stability to offer the right level of motion control for runners with normal pronation or a neutral foot movement. A lightweight shank combines with V-flex zones in the outer sole to increase stability and provide natural flexibility.
- Lightweight engineered mesh upper ensures great breathability
- Drop: 6mm

MATEN
